

Syllabus

Principles of Economics I
ECON 201HC FALL 2022

Instructor	David Youngberg, Ph.D. Department of Business and Economics Montgomery College—Rockville
MC Econ Website	http://cms.montgomerycollege.edu/economics/
Personal Website	http://dyoungberg.com
Email	david.youngberg@montgomerycollege.edu
Office Number	240.567.5144
Office Location	HU 241
Office Hours	Mondays/Thursdays 12:30-2:30 Tuesdays 1:00-3:00 (Zoom) And by appointment
Course Information	CRN 21639 TR 11:00am to 12:15pm HU 106
Course Length	08/30/2022 to 12/18/2022
Course Materials	Course materials (lectures, practice exams, syllabus) are available on my website and on Blackboard.

IMPORTANT: Zoom Recording

While our class is in person, circumstances might demand that we are sometimes remote. Please be advised that these remote class sessions will be recorded (in video and audio format), capturing student participation in class discussions or activities. Any student profile image used may be captured in the recording. As permitted by the Family Educational Rights and Privacy Act (FERPA), recordings of each class session may be shared with students currently enrolled in the course as reference material or when they are unable to attend a live class session. Recordings may not be shared with any other parties, without the prior written consent of those captured in the recording; however, the College reserves the right to use recordings to investigate alleged Code violations.

Students with a profile image, activated camera and/or audio features during a class session, agree to have their profile picture, video image, and/or oral statements recorded during the class session. If you choose not to have your profile picture, video image, or oral participation recorded:

- A. Do not use a profile image,
- B. Disable the video feature, and
- C. Mute the audio component of Zoom for each class session.

This will allow you to share in the learning without being captured in class recordings. To participate while muted, you can submit comments or questions in the Zoom chat feature.

NOTE that when I record sessions, the only video recorded will be from my camera (with perhaps some glimpses of who is ever in the Zoom room during the initial set up period). Your video feed will not be captured during normal class sessions.

I. Course Description

Covers macroeconomic theory half of a one-year course in economics including central problems of economic society, supply, and demand; national income and product; saving, consumption, and investment; income determination; money supply and deposit creation; monetary and income analysis and alternative economic systems. Three hours each week.

Prerequisites: High school algebra or its equivalent or consent of department.

Assessment levels: ENGL 101/101A; MATH 093/096; READ 120. Three hours each week.

II. General Education

ECON 201 fulfills a General Education Program Behavioral and Social Sciences Distribution. Montgomery College's General Education Program is designed to ensure that students have the skills, knowledge, and attitudes to carry them successfully through their work and personal lives.

This course provides multiple opportunities to develop two or more of the following competencies: written and oral communication, scientific and quantitative reasoning, critical analysis and reasoning, technological competency, and information literacy. For more information, please check www.montgomerycollege.edu/gened.

III. Resources

- Greenlaw, Steven A. and Timothy Taylor. *Principles of Macroeconomics*. Openstax. (This is a free online textbook.) <https://openstax.org/details/principles-macroeconomics>
- Frank, Robert. *The Economic Naturalist: In Search of Explanations for Everyday Enigmas*. 2007. (Note this is not required, only strongly suggested.)
- You must sign up and use Blackboard; homework will be on Blackboard and papers will be submitted through it.
- In addition, there are online readings. ***Do not neglect them.***

IV. Technical Requirements for Remote Instruction

- a. General Technical Requirements:
 - i. Computer with internet connection
 - ii. Up-to-date internet browser(s)
 - iii. Webcam and microphone

- iv. Install at least one alternative browser (i.e. Chrome or FireFox) in addition to the default browsers provided with the operating system (The browser Internet Explorer no longer works with most applications)
- b. Hardware:
 - i. Processor – Intel Core i3 (8th gen, 2 core, 4MB cache, 2.1Ghz and up)
 - ii. RAM (memory) – 4/8GB
 - iii. Drive (disk space) – 128GB Solid State Drive (or 500GB Hard Disk Drive)
 - iv. Web Camera and Microphone
 - v. Wireless Computer Network (WLAN - 802.11ac)

IV. Student Learning Outcomes

Upon completion of this course, the student will be able to:

- 1) Apply basic economic concepts such as scarcity, opportunity cost, and comparative advantage to everyday life situations.
- 2) Use the market model to explain how prices are set, quantities are bought and sold and how resources are allocated.
- 3) Analyze the basic structure of capitalism and contrast with alternative economic systems.
- 4) Measure unemployment and inflation.
- 5) Analyze functions of money and the U.S. banking system.
- 6) Use the model of aggregate supply and demand to examine unemployment and inflation and how these can be affected by government policy.
- 7) Identify the primary purposes, limitations, and controversies regarding the use of fiscal and monetary policies. Use the model of aggregate supply and demand to examine unemployment and inflation and how these can be affected by government policy.
- 8) Identify the factors of economic growth for both developed and less developed countries.
- 9) Examine globalization and its impact on the economy.
- 10) Measure gross domestic product (GDP) and analyze its shortcomings.

V. Format and Procedures

This course is made up mostly of lecture with class discussion and class activities to underline important concepts. Class discussion is paramount to the class, since I find interaction of this sort particularly valuable in understanding the economic ideas and how they fit into the world.

VI. My Assumptions

I assume you have a basic curiosity about the world around you. I assume you are familiar with basic algebra and can correctly interpret diagrams and tables. I assume you will do the indicated readings.

VII. Your Responsibilities

You are responsible for all information in class even if you are late or absent. You are also responsible for checking your campus email daily. Course changes, suggestions for study, and other important messages will be posted by campus email. Bear in mind your Montgomery College email is the official means of communication.

You will turn off cell phones during exams and during class. Keep disruptions (e.g. side conversations) at a minimum (aka zero).

If you have a question, you are strongly encouraged to email me or visit my office hours. Your method of contact should be through my email address at Montgomery College. Do *not* email me through other methods, including Blackboard. I will not respond to such messages.

VIII. Asking For Help

Please let me know if something is going on in your personal life that's making it difficult for you to succeed in this course. I don't need to know the details if you don't want to share them but if you're struggling with something, it's worth it to reach out to me (or another professor, or counseling, if you prefer).

To quote a Facebook post of the late, great Steve Horwitz:

I know you think you can handle it, and I know that you think coming to us this way is a sign of weakness. But you're wrong. Coming to us is smart. It's brave. It's strong. It shows that you want to succeed. Most faculty are reasonable about these sorts of things, but we can't help you if we don't know.

We are here to help you succeed.

IX. Basic Needs Statement

Any student who has difficulty accessing sufficient food to eat every day, or who lacks a safe and stable place to live, is urged to contact the Dean of Students Affairs on your campus. Furthermore, please notify the professor if you are comfortable in doing so. This will enable the professor to provide any resources that they may possess. We know this can affect performance in the course and Montgomery College is committed to your success.

The Dean of Student Affairs on the Rockville campus is [Dr. Tonya R. Mason](mailto:tonya.mason@montgomerycollege.edu),
tonya.mason@montgomerycollege.edu.

The Student Health and Wellness/Fuel for Success website offers information about resources for food on our campuses and in the community and has links for community resources. The site offers the schedule for the mobile markets, locations of the food pantries as well as a link for those

who wish to contribute their time or money to support our students.
<http://cms.montgomerycollege.edu/student-health-and-wellness/fuel-for-success/>

Each of the main campuses has a pantry stocked with snacks and food. Students are welcome to come pick up a snack to carry you through your next class, and to take a few items home.

Campus	Pantry Location	Days & Hours of Operation
Germantown	<i>High Tech (HT) Food Pantry</i> In the hallway, near HT300	9:00 a.m. - 5:00 p.m.
Rockville	<i>Women's' and Gender Studies Program Food Pantry</i> Hallway outside of MT212 --- <i>Biology Department Food Pantry</i> Science Center, 2 nd floor hallway	Monday-Friday 9:00 a.m. - 5:00 p.m. --- Monday-Friday 9:00 a.m. - 5:00 p.m.
Takoma Park/Silver Spring	<i>Commons Food Pantry</i> CM 110 <i>Institute for Justice, Race and Civic Engagement Food Pantry</i> Pavilion 4, #202 Vincent.intondi@montgomerycollege.edu	Monday - Thursday 8:00 a.m. - 7:00 p.m. Saturdays 9:00 a.m. - 1:00 p.m. Monday and Wed: 12:30-4 Tuesday and Thursday: 2-4

IX. Standards of College Behavior

This section is quoted from the Student Code of Conduct. For more information, please visit https://www.montgomerycollege.edu/_documents/policies-and-procedures/42001-student-code-of-conduct.pdf

The College seeks to provide an environment where discussion and expression of all views relevant to the subject matter of the educational forum are recognized as necessary to the educational process.

However, students do not have the right to interfere with the freedom of the faculty to teach or the rights of other students to learn, nor do they have the right to interfere with the ability of staff to provide services to any student.

Faculty and staff set the standards of behavior that are within the guidelines and spirit of the Student Code of Conduct or other College policies for classrooms, events, offices, and areas, by announcing or posting these standards early in the semester.

If a student behaves disruptively in the classroom, an event, an office, or an area after the instructor or staff member has explained the unacceptability of such conduct and the consequences that will result; the student may be asked to leave that classroom, event, office, or area for the remainder of the day. This does not restrict the student's right to attend other scheduled classes or appointments.

If the student does not leave, the faculty or staff member may request the assistance of Security.

The faculty or staff member must communicate with the student about the incident before the next class meeting to resolve the issue. If a second incident occurs that warrants removal from class, the faculty member again communicates with the student and must send a written report about the incident to the Dean of Student Development with a description of the incident and whether or not the incident is being referred to the formal disciplinary process.

The Dean of Student Development or designated instructional Dean of Workforce Development and Continuing Education should be informed in writing about any situation that should be addressed through the formal disciplinary process. The faculty or staff member will provide the Dean of Student Development with a written summary of the facts or conduct on which the referral is based within 48 hours of the incident for appropriate and effective disciplinary process, which must include the date, time, place, and a description of the incident.

X. Academic Dishonesty

Part of this section is quoted from the Student Code of Conduct. For more information, please visit <https://www.montgomerycollege.edu/documents/policies-and-procedures/42001-student-code-of-conduct.pdf>

The maintenance of the highest standards of intellectual honesty is the concern of every student, faculty and staff member at Montgomery College. The College is committed to imposing appropriate sanctions for breaches of academic honesty.

See the above link for more information concerning what constitutes academic dishonesty and misconduct as well as possible sanctions imposed as punishment.

Some students have used websites that provide answers to exam or homework questions or write essays for them. To be abundantly clear, using these websites in this way is always cheating. For example, Chegg (which I know is popular) posts answers to homework or exam questions. Even if you didn't post the question, using that website to find answers is a violation of the Student Code of Conduct and posting questions is a particularly egregious violation because you are not only cheating yourself but also enabling others to cheat.

XI. Disability Support Services

Any student who needs an accommodation due to a disability should make an appointment to see the course instructor during office hours. In order to receive accommodations, a letter from Disability Support Services will be needed. Furthermore, any student who may need assistance in the event of an emergency evacuation must identify the Disability Support Services Office.

XII. Veterans' Services

If you are a veteran or on active or reserve status and you are interested in information regarding opportunities, programs, and/or services, please visit the Combat2College website at <http://www.montgomerycollege.edu/combat2college/>.

XIII. Attendance

Students are expected to attend all class sessions. In cases involving excessive absences from class, the instructor may drop the student from the class, but you are ultimately responsible for dropping yourself from the course. Auto-drop should not be assumed. Excessive absence is defined as one more absence than the number of classes per week during a fall or spring semester; the number of absences is pro-rated for accelerated sessions.

XIV. Withdrawal and Refund Policy

It is the student's responsibility to drop a course. Non-attendance of classes or failure to pay does not constitute official withdrawal. To view specific drop deadlines, log into your MyMC account, click on "My Class Schedule" under "Student Quick Links." Select the current term and click "View Drop Deadline Dates" at the bottom of the page.

XV. Audit Policy

All students registered for audit are required to consult with the instructor before or during the first class session in which they are in audit status, and students are required to participate in all course activities unless otherwise agreed upon by the student and instructor at the time of consultation.

XVI. Delayed Opening or Closing of the College

On occasion, Montgomery College will announce a late opening or early closing of a specific campus or the entire college because of weather conditions or other emergencies.

- If a class can meet for 50% or more of its regularly scheduled meeting time *or* if the class can meet for 50 minutes or more, it will meet.
- Montgomery College will always operate on its regular schedule unless otherwise announced. Depending on the nature of the incident, notifications of emergencies and changes to the College's operational status will be communicated through one or more communication methods include the College's web page.

XVII. Tutoring

Montgomery College Learning Centers provide academic support resources, including virtual tutoring, to currently enrolled students. All students have access to the STEM Learning Centers, the Academic Success Center, and the Writing, Reading, and Language Centers. Information about specific learning centers and tutoring schedules can be found at <http://www.montgomerycollege.edu/academics/support/learning-centers/virtual-tutoring.html>

There is free economic tutoring available through the Takoma Park/Silver Spring's Academic Success Center. ~~You can get face-to-face tutoring at CM110 at TP/SS. You can get online tutoring via Skype in Rockville's Digital Learning Center at HU307 and in Germantown's Writing/Reading Center at HS150.~~

The Skype user name is *ASC-tutoring* and keep in mind *no campus has priority*; this is a first-come, first-serve basis regardless of which campus the student comes from. ~~Face-to-face does not have priority over online tutoring.~~

Keep in mind the tutor may not be able to help you on all material, notably the material that's not part of the official course description. The tutors are least likely to be helpful concerning material that has a N/A next to it under the "Text" section of the course schedule.

The tutoring schedule changes each semester and will be released sometime shortly after the semester begins.

XVII. Course Changes

The instructor reserves the right to alter the schedule of the course if necessary but will notify the students of any changes to the schedule before the changes are implemented.

XVIII. Grading, Evaluation, and Assessment Procedures

Weight of Assignments

<i>Assignment</i>	<i>Weight</i>
Course Orientation	1%
Edpuzzles	1% each (4% total)
Economic Naturalist Questions	4%
Economic Naturalist Paper	15%
Blackboard Homework	1% each; lowest two dropped (10% total)
Exams	24% total (lowest is 10%, highest is 14%)
Final	20%
Participation	6%
First Look paper	1%
Second Look paper	15%

Course Orientation.

This Blackboard "homework" is a short quiz about the syllabus.

Edpuzzles.

There are four episodes of Planet Money I'm assigning. To ensure you listened to these episodes, you'll be listening to them via Edpuzzle. Edpuzzle prevents you from skipping ahead and requires that you answer some basic questions about the episode as you listen to it. You can find the link to the Edpuzzle assignment via Blackboard. Note the first Edpuzzle is due immediately.

Blackboard Homework.

There will be twelve homework assignments completed through Blackboard. The lowest two will be dropped.

You will have two attempts to complete each homework. After each submission, you will be informed which questions were wrong. Your score for the homework will be your best score among all attempts.

Answers will be displayed after the due date has passed. Therefore, you **cannot** start the homework after the due date has passed and any homework submitted after the due date will **not** be accepted. Blackboard is very strict in this regard; even being one second late will mean you cannot start the homework.

To access the answers, and the feedback for each question, select the View Attempts option that becomes available after the due date has passed. It will display all your attempts' scores; select one of these scores to see the answers and feedback.

Economic Naturalist Assignment.

This semester you'll be reading *The Economic Naturalist* by Robert Frank. It's a collection of short essays that his student wrote for his economic naturalist assignment. You'll be doing the same assignment and these examples will not only help you understand the material but also what to expect of the assignment.

Economics is a widely applicable discipline, able to shed light on a variety of everyday puzzles. But it all boils down to the same principles and themes. This assignment is about you using one of the ideas we discussed in class to explain a puzzle from the world around you.

A document on Blackboard called *The Economic Naturalist Advice* offers additional tips for both asking questions and for answering them.

- *Questions.* I thought about giving you a list of questions to choose from in case you couldn't think of one. But this robs you of one of the advantages of the assignment: forming your own questions and thinking about if they are good or bad and why. So instead you will submit five questions you've come up with. **Don't answer them**—this is to encourage you to practice seeking puzzles and discourage procrastination. **Do not use questions from the Frank book, from the readings, or from class. A document on Blackboard call**

Questions Used in The Economic Naturalist lists all questions from the book; reference that to ensure you aren't repeating a question.

I suggest you consult the book for ideas and to understand the sort of questions I have in mind. To gather your questions, I suggest you visit the world around you and examine it with a critical eye. Notice the differences in products or procedures. Visit a variety of stores. Study your fellow humans—it's called the economic naturalist because this is the sort of thing biologists do. Using basic principles of biology you can unravel a variety of mysteries from the world around you. So it is with economics.

- *Economic Naturalist Paper.* Your space is limited to 500 words—the best papers are concise and approachable. Your ability to communicate is just as important as the question you ask (and yes, the title of your assignment should be in the form of a question).

When answering your question, it's important to be complete. The best questions have an element of paradox to them so unless you solve the paradox you haven't really answered the question. For example, one student once asked "Why are there Phillips head and straight head screws?" An excellent question. But the student answered by describing the history of the Phillips head. The cross shape prevented the screwdriver from slipping away from the screw. But this *does not* explain why we still have straight screws. The question remains only partially answered.

Remember to double-space your paper.

Exams.

The two exams will comprise of short answer, matching, and multiple choice. Since all exam dates are listed here, you will be expected to attend them. Failure of attendance results in a zero for the exam. Exceptions will only be made in extreme circumstances (such as a death in the family) and in those cases written proof (such as a death certificate) must be presented.

The use of any calculator which is built into a phone is not permitted.

Final.

The final is comprehensive. It'll have a similar structure as the normal exams, but longer. I suggest you review past exams to help prepare.

The final schedule for December is available now, on the college's website. You have signed up for these classes with this knowledge at hand. I will not let you take your final at a different time just because you don't like your schedule.

Participation.

I'm a strong believer that people learn best if they speak up. It's a good rule not just for learning but for life in general. However because there's a lot of material to cover, we cannot always have an in depth class discussion. Thus the expectations for participation reflect that—a substantive comment or question once a week will fulfill the requirement just fine.

First Look Paper.

We're going to cover a lot of different topics and ideas in this class. Even if your opinion on these topics don't change, how you justify that opinion very well might. This paper establishes your baseline opinion for a topic we'll cover in class. Regardless of the topic, be sure to briefly discuss what you'd do to fix a problem related the topic you chose. Some topics include:

- Economic development
- Inflation
- Income inequality
- Recessions

Keep in mind:

- The whole assignment should not exceed one page. Limit your thoughts to a paragraph or two.
- Note the primary purpose of this essay is about establishing your opinion.
- While this paper counts towards your final grade, it will not be graded. Completion of the assignment is all that's needed for full credit.

Second Look Paper.

This is a paper you will turn in at the end of the course. The idea is that you look back at your first look paper and build on it. While it's good to reflect on what you've learned, at the core of this papers is a proposed policy to solve a particular problem. It's advised that you keep your policy and topic pretty narrow to allow for the focus and depth a thoughtful response requires.

This has a discussion component. I'll aside about 15-20 minutes on the last day of class for everyone to get into break out groups to discuss the second look paper. The goal of this discussion is to explore other people's positions and their justifications in preparations for your paper. Everyone's encouraged to bring up your EconTalk episodes and any other relevant information you learned.

More is expected of this paper and the standard rules for writing applies. Make sure you have a thesis statement (don't just say "it's complicated"), supporting arguments, an effective conclusion, good spelling and grammar, etc. How has formally covering the material changed (or not changed) your views on this issue? In writing this essay, you will have to draw on issues and concepts we've discussed, including at least one EconTalk episode. This paper has a maximum length of three pages, double spaced.

EconTalk is a weekly podcast (usually) about economics hosted by Russ Roberts. He (usually) interviews another economist and he's covered a wide range of topics over the more than ten years he's hosted the podcast. There are over 750 episodes and each is about an hour.

To find an episode that would inform your opinion about a topic, try going to the [categories page](#) (note that some categories are old; for example there are no episodes in the Health Care category but there are in the Health category). You do not have to agree with any conclusions drawn in the episode but you must draw on some of the ideas to improve your argument. (For example, you could say that EconTalk, in episode X, discusses how Y is important but it's not actually important because of reason(s) Z.)

Suggested categories: Altruism and Charity; Business Cycles, Recessions, and the Great Depression; City Formation, Environment; Education; Health; Income Inequality; Immigration and Nationalism; Money, Banking, Monetary Policy; Poverty and Development; Public Choice; Urban Issues.

Note that other categories might work but I wanted to give you some starting points to help show the breadth you're allowed.

XIX. Late Policy

For *every* 24-hour period (rounded up) an assignment is late, there is a 10% penalty. Because all assignments are turned in through Blackboard, weekends count towards this period (turning something in Monday morning when it was due Friday at 11:59pm would count at a 30% penalty).

If you miss an exam, you make appropriate arrangements with me and the Montgomery College Assessment Center. There is a form to fill out (the Faculty Test Request Form). I will not allow you to make up an exam after I've graded and passed it back.

Poor Internet or other technical problems is not a compelling reason to turn in an assignment late; this is a foreseeable problem—akin to traffic—and it's a possibility that should be accounted for.

XX. Challenges

Students are encouraged to challenge how any assignment was graded. To challenge the score on a question, *type* a paragraph explaining why your answer is the correct one and are thus deserving of additional points. I am not, repeat *not*, interested in reading about any mistakes you made but why you believe you are more correct than I gave credit. These challenges are due one week after the graded assignment was passed back or posted on Blackboard.

XXI. Reviewing Papers

I'm happy to look at your paper before you turn it in. However, you *must* send it to me at least 72 hours before the assignment is due. It is not possible for me to review dozens of papers at the last minute and will refuse to look at any paper any closer to the deadline.

I strongly prefer that you email me your drafts. It prevents long lines outside my door, gives me sufficient room to read and craft thoughtful feedback, and gives you a written record of my thoughts. Barring unusual circumstances, I will email you my thoughts on your draft at least 24 hours before the paper is due, giving you ample time to make revisions.

XXII. Comments

I will always provide comments for your economic naturalist questions because that helps you write your economic naturalist paper. However, it's not clear to me that students generally read these comments. Therefore, comments for your economic naturalist paper and your Second Looks papers will *only* be provided if you opt in by writing "please provide comments" or something like that in the comment section when you submit your papers via Blackboard.

XIX. GroupMe

To facilitate student inquiries, I've set up a GroupMe chat for the class. You are encouraged to ask questions to me or the class in general. See Blackboard Announcements for the link to join the GroupMe chat.

Please note that all of my 201 sections share the same group chat. The content is the same but deadlines may differ.

XX. What's My Grade?

If you want to know your grade-to-date, multiply your score on each assignment by its weight (indicated in the previous section). Then divide by the total percent assigned so far. Compare the result with the grading scale (below) to determine your grade.

All assignments are out of 100 points. For participation, you'll want to adjust the weight of the participation for how far in the semester you are in. For example, if you want to know your grade about 20% into the semester, you'll want to give participation a 2% weight rather than a 10% weight.

Grading Scale (points or percent needed for specific grades). Your grade, for both the midterm and the semester, will be determined by how many points you've accumulated throughout the class (by the table below).

A: 90+ | B: 80-89.99 | C: 70-79.99 | D: 60-69.99 | F: 0-59.99

Note that these are strict bounds: if you get 89.89 points for the semester, that's a "B," not an "A." I will only "round up" if I feel it's appropriate. This may mean you:

- Regularly went above and beyond what's required for full credit (such as participation);

- Exhibited increasing mastery of the material as the semester moved forward (impressive, since the material gets harder as the semester moves forward); and/or
- Consistently demonstrated an understanding of particularly important question(s), especially if your fellow students had trouble with such question(s).

Example. Now that he’s completed his first exam, Henry wants to know his grade-to-date. Here are his grades so far:

<i>Item</i>	<i>Score</i>	<i>Weight</i>	<i>Item</i>	<i>Score</i>	<i>Weight</i>
Homework 1	100	1%	Participation	100	1.5%
Homework 2	60	1%	Draft 1	90	4%
Homework 3	80	1%	Exam 1	76	10%

Note that since it’s so early on in the semester, we made Henry’s participation grade worth 1.5% (since we’re one-fourth through the semester) rather than 6%.

Since all the homework is being adjusted by the same weight, we can add it all together first (240). And so:

$$240 \times 0.01 + 100 \times 0.015 + 90 \times 0.04 + 76 \times 0.10$$

$$2.4 + 1.5 + 3.6 + 7.6 = 15.1$$

The total percent so far is:

$$1\% + 1\% + 1\% + 1.5\% + 4\% + 10\% = 18.5\%$$

Now we divide:

$$15.1 / 0.185 = 81.6$$

Despite his Exam 1 grade, Henry’s grade-to-date is a B (but just barely!).

XXI. Tentative Schedule

The following table describes this course day-by-day. “#” indicates which numbered lecture is covered that day which will aid you finding the lecture notes on my website. “Text” indicates the chapter of the textbook we will be referencing that day but are ***not*** required. That column only exists for your own reference. “Readings” ***are required***—you’re expected to read before class that day. EN Essays are found on my website [here](#).

Blackboard homework is always due at 11:59pm.

UNIT	DATE	#	TOPIC	TEXT	READINGS
I	08/30	01	Introduction	1	
	08/31	EDPUZZLE: THE PICKLE PROBLEM DUE AT 11:59PM			
	09/01	02	Economic Systems	1	EN Essays Part 1
	09/05	FIRST LOOK PAPER DUE AT 11:59PM COURSE ORIENTATION DUE AT 11:59PM			
	09/06	03	Opportunity Cost & Marginal Analysis	2	Bastiat ¹
	09/08	04	Supply and Demand	3	EN Essays Part 2
	09/12	HOMEWORK 1-2 DUE AT 11:59PM			
	09/13	05	Trade	2, 10
